

Skeptics Welcome!

"My Church is the most welcoming, engaging, God centered place I know. Who would not love to be here..."

Unfortunately the answer to that question is MANY PEOPLE! Many people are skeptical of the claims that congregations make...and for good reason. They have been burned; they have experienced judgment and rejection firsthand. They have bore witness to congregation's fixations with appearance and membership at the expense of engaging their communities with the love and service Jesus taught. They have experienced disappointment when their sincere and deep questions about God and faith have been met with simplistic answers that do not do justice to their spiritual curiosities or adult faith.

If this has been your experience...we are truly sorry. No congregation is perfect including us; however, we are trying to take seriously these encounters people have had with church. We want to be a congregation that meets people where they are. We want to build a community comprised of people with different experiences of church and faith-backgrounds. We want people to bring their doubts and their questions not so that we can give simplistic answers but walk with them as they discern the presence of God in this world.

Why should you believe us? You shouldn't...instead you are invited to COME AND SEE! At the very least give us a call, send us an e-mail and tell us your story so that we can better understand and more faithfully walk with all those who have had similar experiences.

Thank you and God Bless
